

# NAME-DROPPING AT WESTFORD

When it comes to high-quality suppliers and builders at Westford, we're not above dropping a few names.

Homes, villas and condos at Westford feature some of the finest names in construction materials, including Pella® Windows and James Hardie® siding products.

Beautiful and built to last, Pella® windows offer solid wood construction and glazing options that protect carpets, walls and furniture.

James Hardie® flame-resistant fiber cement siding products match the beauty of wood but are stronger, and the color is baked on so it won't rot, chip or crack.

EXCLUSIVE BUILDERS. We have chosen companies known for high-quality design and construction and named them as exclusive builders at Westford. For more information, go to our BUILDERS PAGE on our website.
